FACT SHEET

Life Skills

We provide life skills education for residents age 13 and older who reside on or off campus. Topics include budgeting, banking, meal preparation, food safety, parenting education, employment preparation and retention, continuing education preparation, health safety, wellness and many, many more.

Transitional Living

We provide services for youth age 17 and older who are transitioning into adulthood. They are able to begin to transition into adulthood with the support and assistance of the Children's Home.

Women/Women & Children Shelter Program

We provide assistance to female alumni, some who are mothers who have become homeless. This program allows former residents to access safe and supportive housing while learning the basics of parenting and regaining self sufficiency.

Alumni Assistance Program

We provide emergency assistance to young alumni who are not meeting their basic needs such as food, shelter and clothing.

Continuing Education Program

We provide scholarships for former residents who are working to continue their education. Residents can apply for financial assistance when enrolled in continuing education pursuits.

Career Development

We provide preparation and knowledge of some of the more common trade industries through our Career Development Program. Some of these programs are Construction, Automotive, Culinary, Cosmetology and Child Care.

Drivers Education

Designed to give residents the experience and skills necessary to be a safe and educated citizen of the road. A skilled and licensed drivers education teacher is available for residents to learn the ins and outs of local roads and highways, the laws and rules of the road and the etiquette of sharing the road with others.
